

AMENDMENT TO THE CLAIMS:

This Listing of Claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

Claim 1 (currently amended) A wound disinfecting method, comprising

- A1
- (1) (a) supplying power to a whole system thereof;
 - (2) (b) supplying current of air; a pressure of said current of air being increased with a turbine fan and a wind tunnel;
 - (3) (c) multiplying voltage; the voltage being multiplied to such a degree that electric discharge similar to discharge of lighting can happen for allowing an ozone generating unit to generate ozone of high concentration;
 - (4) (d) eliminating electromagnetic interference so as to eliminate interference of static electricity of electromagnetic waves;
 - (5) (e) blowing the ozone of step (3) (c) out by means of said turbine fan and other auxiliary fans; and,
 - (6) (f) disinfecting a wound; the ozone being passed over the wound for destroying bacteria therein and therearound.

A |
Claim 2 (currently amended) The wound disinfecting method as claimed in Claim 1, wherein step ~~(3)~~ (c) further includes supplying ultraviolet rays by means of an ultraviolet ray generating unit for disinfecting the wound; an isolation treatment being done on said whole system for protecting a user from said ultraviolet rays.

Claim 3 (currently amended) The wound disinfecting method as claimed in Claim 1, wherein step ~~(3)~~ (c) further includes supplying anions by means of an anion generating unit for disinfecting the wound.

Claims 4-13 (canceled).
